

2022 Cardiology Symposium

Cardiovascular Care for the Non-cardiologist

Please join us for the eighth annual Cardiology Symposium. Faculty include Prisma Health physician leaders in cardiology, electrophysiology and lifestyle medicine.

Saturday, Jan. 29, 2022; 8 a.m.–4.30 p.m. (breakfast and registration start at 7 a.m.)

Clemson University Nursing building on Greenville Memorial campus

605 Grove Rd., Floor 1, Auditorium (parking reserved for conference attendees)

Agenda topics include: Modern approach to non-invasive work-up of chest pain; SGL2 inhibitor use in cardiac care; applied nutrition; cardiac amyloidosis; remote monitoring for HF; cryptogenic stroke; structural heart update; and lipid-lowering strategies beyond statins.

Lecture sessions are enhanced by panel Q&A. Scheduled breakout sessions will provide a deeper dive and opportunity for specific Q&A with a field expert.

Registration will open November 2021 on the Prisma Health CME website in the Upstate: ghscme.ethosce.com.

We are pursuing education credit for physicians and advanced practice providers.
